

TITLE - GOD'S PATIENCE

READING GENESIS 6:3A

Since the beginning of creation, the world has never seen rain. (See Creation day 3/4 for recap). Life has developed in such a way that God is forgotten about.

Men and Women increase greatly as a natural population explosion takes place. Rebellion has spread throughout the whole Earth causing a great offence to God. (Read Genesis 6:1-7)

This lesson gives a great opportunity to compare the spiritual state and resulting consequences of Noah's day to that of ours.

God has set an appointed time for His judgement, can you take the chance and wait as long as possible?

"Behold, now is the accepted time; behold, now is the day of salvation." 2 Cor. 6:2
